

Payment History

Choose an Account (from 2 accounts) ▼

Currently Viewing: Account #1

Account #1 details: This is a placeholder for the payment history content for Account #1.

Changing Views: State 1

The user is on the "Payment History" page viewing information about Account #1.

What is an appropriate page title for the view?

NOTE: The "page title" is displayed in the browser tab and is the very first thing encountered by assistive technology, like screen readers when navigating to a new page.

Payment History

Choose an Account (from 2 accounts) ▲

Account #1

Account #2

Account #2 details: This is a placeholder for the payment history content for Account #2.

Changing Views: State 2

The user activates the "Choose an Account" control and selects "Account #2" from the list.

Payment History

Choose an Account (from 2 accounts) ▼

Currently Viewing: Account #2

Account #2 details: This is a placeholder for the payment history content for Account #2.

Changing Views: State 3

The page dynamically updates the content in the panel below, now displaying information for Account #2.

Describe what should happen to browser focus? Why?

Should the page title change? Why?
